

"TOGETHER" JOB COACHES FOR REFUGEES WITH SPECIAL HEALTH CONDITIONS AND DISABILITIES

Do you have a disability or a health restriction? And do you come from another country and have a residence permit here? If you also speak sufficient German, we will support you at your workplace or in your search for work. If you would like support, please contact our job counselling service for refugees.

This is what we can do for you:

We prepare you for the labor market: for example, we look at what suits you well or what you are good at. We help with legal issues or clarify whether you are authorized to work here with your previous training.

We help you to find a job: e.g. by writing an application or practicing for a job interview. Together we will find a work trial in a company where you would like to try out or show what you can do.

We will support you in matters relating to work: for example, we will advise you on technical aids and how to apply for them so that the restrictions caused by your disability are minimized. Or we can help you find a German course or further vocational training.

Project at a glance:

For whom?

For refugees with disabilities and/or health restrictions.

What is the aim?

- Support with career planning
- Help with the application process
- Establishing contacts with companies
- Initiation of work trials
